What do you do when you wake up in a hospital with no memory? John is a young man that finds himself waking from a coma. He has no idea who he is, if he has loved ones, or even if he is involved with anybody. Jessica, a nurse has taken advantage of him, but it wasn't like she had to force the issue. He finds her to be delightful and their friendship begins to grow, even as he starts a new journey with Bruce. Bruce is an entrepreneur and businessman with a penchant for the kinky.

Jessica convinces him that taking the bull by the horns isn't such a bad idea and that living his life to the fullest is the best way to go. He is a blank slate and soon he is succumbing to his desire for Bruce, pleasuring Bruce in the limo before they even reach the airplane. Then as a gift, Bruce has given him an escort of Asian descent that leaves him with a smile etched across his face. What else can he possibly get into and is this just scratching the surface of what he's capable of?
