

Scorpio Horoscope 2016 (Volume 8)

The focus this year is very much on what is real and concrete, and you are determined to get results that are quantifiable. A good year to set down roots, make progress on ongoing projects and solidifying your position. You can really entrench yourself and gather a head of steam that can bring power and more control in your work, social life and within the groups you associate with. You are in a dynamic phase of life where you want to reach out to people and make things happen. You are inspired to spread both beauty and knowledge via your creativity and ideas, and you are more than willing to take a few risks. Your energy comes in bursts, and you are courageous in pushing back boundaries, both your own and those of others. On a personal level, you can dig deep and change things that you have carried for many years, freeing yourself from the past and allowing yourself to embrace what is new.
