

Parivartana Yoga

Parivartana Yogas are said to be among the most powerful of planetary combinations, having the capacity to link the effects of two astrological houses in a chart. However, aside from what we find explicitly in Mantreswaras Phala Deepika, there's little in the literature neither in the many classics of Jyotisha, nor in modern books to help us understand these yogas. In this book, an invaluable reference work for any Vedic astrologer's library, the author describes the effects for each of the 66 combinations of house lord exchange, also known as mutual receptions. A case study of a famous person accompanies each combination.
