

## End of State: Now All the Rules Have Changed (Left Behind Political)

From the back rooms of the U.S. government to the world stage of the United Nations, End of State explores the world of politics and government as it is changed forever by the Rapture. This new series, combining the explosiveness of the Left Behind universe with the immediacy of West Wing-style political thrills, takes the Rapture and ratchets up the tension to a fever pitch. Written by political insider Neesa Hart, who has won prestigious awards both for her writing and for her youth ministry in churches across America.
