

Ginger (No Need to be Gentle With Me Book 3)

Ginger needed a man who knew how to take charge. She needed a master. She had been craving and searching for the right one for a while. When the professor offered to give her private tutoring in self-discipline she found everything she could want and more. The Professor never fails to take Ginger to the brink of her limitations, but never beyond them. He has high expectations, but she unfortunately seems to have no self-control, whatsoever. Can she ever manage to prove herself to her new dom in hopes of belonging to him completely, or are her own desires too strong to fight?
