

Swim WithOUT Sharks ~ The REAL Surfers Paradise: Guide to shark attack-free Destinations of the World

THIS IS NOW A #1 BESTSELLER. Brought to you by A list talent Veronica Grey who shares the Special Humanitarian Award with Leonardo DiCaprio for their tireless efforts to salvage the environment, namely in the short documentary <http://www.WorstSharkAttackEver.com> . She is the worlds most televised surfer known as The Queen of Surfing & <http://www.BestSurferOfAllTime.com> . Promotional consideration is on <http://www.Facebook.com/SwimWithoutSharks> . Veronica also authors these #1 bestsellers <http://tinyurl.com/WealthAndWisdom??> <http://tinyurl.com/SurfDiet> and <http://tinyurl.com/LegallyTaxFree>. Once every 5 days, someone is bitten by a shark somewhere. Wouldnt you like to know what beaches dont have the food source of sharks, because that means sharks are not likely to go there? See <http://www.YouTube.com/SurfLadyTVQueenOfSurfing> or <http://www.VeronicaGrey.com> for many TV appearances on this. These shark attacks occurred UNPROVOKED because people simply were not aware of sharks in the area. So welcome to the FIRST EVER and ONLY Comprehensive Guide to Destinations in the world with no sharks! Here is everything you need to help you plan your next vacation, prepare for your next water sport, or relax knowing your loved ones are in a safe body of water. You can check out actual beaches that have never ever had a shark attack or even a well-documented shark sighting. For example, if you Google sharks in Florianopolis, Brazil you will discover there has never been a shark attack there, or even a well-documented shark sighting, because we did not list any places with so much as a well-documented sighting since a shark sighting could lead to a future encounter. That is how we define a zone to be shark free. We researched EACH and

EVERY popular surf spot in the world to bring you this directory, which also has very helpful practical life saving information such as: what to do should you encounter a shark, how to minimize attracting sharks, products to protect one from sharks, how to save the life of someone bitten by a shark, as well as shark-related environmental issues. We tell you WHERE to go, we dont tell you how to get there. Just as in surfing, if you cant paddle yourself to the outside wave, you have no business being there. But its all good because every surf spot we list is researchable online and easy to locate. This is also why we dont rate the wave or describe the surf break. Is that fair? Why go with this Guide? Because there is NOTHING else out there like it. We are the first and only Comprehensive Guide (directory) to shark attack-free Destinations of the World. We list over 50 countries with an average of 10 safe and fun surf spots in every country-over 500 destinations to improve your technique! In todays frantic paced lifestyle, nothing is as therapeutic as a day doing something one enjoys. Very few things are as enjoyable as frolicking in the sea. Creating happy people is a better planet for us all and that is our mission. You are helping to refine humanitys mass consciousness when YOU ENJOY YOUR LIFE. Becoming a water enthusiast makes you more valuable on the job market and to your family because you will be a happier, healthier, and more successful version of yourself. IT IS ONLY FROM THIS PLACE OF RELAXATION AND HEALTH THAT YOU WILL ATTRACT MORE WEALTH. If you intend to become the best person you can be, it is better to take time out to meet your own needs. And this Guide will help you, brought to you by trusted self-help gurus Eternal Youth Empire aka Israel-Light charity org.
