

The Complete Team Defensive System

There is an old saying in coaching that DEFENSE WINS CHAMPIONSHIPS. If you have coached for any period of time, you know that this is very true, and having a strong defensive system for your team is of utmost importance. For this book, I put together detailed descriptions of a complete team defensive system, based mainly on strong man-to-man principles, but also one that incorporates things like half and full court pressure and trapping, and even a match-up zone that can be used solely as a base defense. The topics covered in this book are as follows: A basic man-to-man philosophy with rules. On the ball defensive principles Off the ball defensive principles Post defense (several different options) On the ball screens Off the ball screens and defending cutters Pressure options The match-up zone The importance of rebounding Final thought on the system
