

The Fathers of the Soviet Union: The Lives and Legacies of Vladimir Lenin and Joseph Stalin

*Includes pictures of Lenin, Stalin, and important people, places, and events in their lives.*Discusses the conspiracy theories surrounding Stalins death and how Stalin came to power against Lenins wishes.*Includes a bibliography for further reading.*Includes a Table of ContentsWe want to achieve a new and better order of society: in this new and better society there must be neither rich nor poor; all will have to work. Not a handful of rich people, but all the working people must enjoy the fruits of their common labour. Vladimir LeninIt is time to finish retreating. Not one step back! Such should now be our main slogan.

Joseph StalinAmong the leaders of the 20th century, arguably none shaped the course of history as much as Vladimir Lenin (1870-1942), the Communist revolutionary and political theorist who led the Bolshevik Revolution that established the Soviet Union. In addition to shaping the Marxist-Leninist political thought that steered Soviet ideology, he was the first Soviet premier until his death and set the Soviet Union on its way to becoming one of the worlds two superpowers for most of the century, in addition to being the Wests Cold War adversary. As it turned out, the creation of the Soviet Union came near the end of Lenins life, as he worked so hard that he had burned himself out by his 50s, dying in 1924 after a series of strokes had completely debilitated him. Near the end of his life, he expressly stated that the regimes power should not be put in the hands of the current General Secretary of the Communist Party, Joseph Stalin. Of course, Stalin managed to do just that, modernizing the Soviet Union at a breakneck pace on the backs of millions of poor laborers and prisoners. If Adolf Hitler had not inflicted the devastation of World War II upon Europe, its quite likely that the West would consider Joseph Stalin (1878-1953) the 20th centurys greatest tyrant. Before World War II, Stalin consolidated his position by

frequently purging party leaders (most famously Leon Trotsky) and Red Army leaders, executing hundreds of thousands of people at the least. In one of history's greatest textbook examples of the idea that the enemy of my enemy is my friend, Stalins Soviet Union allied with Britain and the United States to defeat Hitler in Europe, with the worst of the wars carnage coming on the eastern front during Germanys invasion of Russia. Nevertheless, the victory in World War II established the Soviet Union as of the worlds two superpowers for nearly 50 years, in addition to being the Wests Cold War adversary. By the time Stalin died in 1953, it was written that he had found Russia working with wooden ploughs and [is] leaving it equipped with atomic piles. Of course, he was reviled in the West, where it was written, The names of Lenin, Stalin, and Hitler will forever be linked to the tragic course of European history in the first half of the twentieth century. The Fathers of the Soviet Union explores the lives and legacies of Lenin and Stalin before the Bolshevik Revolution, as well as the crucial roles they played in establishing the Soviet Union and turning it into a modern superpower. Along with pictures of important people, places, and events, you will learn about Lenin and Stalin like you never have before, in no time at all.
