

## The Greatest Thing Ever Known

Before New Age there was New Thought, a philosophy that sought God through metaphysics and was wildly popular in the late 19th and early 20th centuries. American mystic and bestselling author RALPH WALDO TRINE (1866-1958) was one of the most influential writers on New Thought principles, and here, in this 1898 work, he explains why Life is the the truest and most certain thing we will ever be aware of: . the vital difference between being alive and being Life . how knowledge of Jesus and his teachings lead to a deeper appreciation of Life . why living Life fully results in sustained peace and safety forever . and more. Easy to understand but profound in its wisdom, this is one of Trines most pious works, and it will intrigue those seeking a deeper understanding of themselves and their relationship with the Divine.
