This ebook is complete with linked Table of Content making navigation quicker and easier. Charles Hoy Fort (August 6, 1874–May 3, 1932) was an American writer and researcher into anomalous phenomena. Today, the terms Fortean and Forteana are used to characterize various such phenomena. *Lo!* was the third published nonfiction work of the author Charles Fort (first edition 1931). In it he details a wide range of unusual phenomena. In the final chapter of the book he proposes a new cosmology that the earth is stationary in space and surrounded by a solid shell which is (in the book's final words) .. not unthinkably far away.
