

The Bimbo Dickgirl Experiment (Futanari Transformation Erotica)

Sheri, a graduate student at a prestigious university, has an obsession with creating a drug that can make her grow a cock. After years of fantasizing and longing for the familiar scenes from her favorite hentai and manga, shes finally developed a pill that is a failure. Disheartened by the results, Sheri lets her roommate, Maria, jokingly take a handful of the pills. Marias hair turns blonde, her bust expands to test the limits of her shirt, and she becomes a ditzy, sex-hungry slut and then grows the largest, hardest cock Sheris ever seen. Will Sheri be able to resist her urges, or will she throw caution to the wind and join her roommate in a wild night of passionate sex to fulfill her lifes ambition? This 8,500 word erotic short story contains sexual and adult themes, and is meant for mature audiences.
