

# Thermal Spray: A United Forum for Scientific and Technological Advances : Prodeedings of the 1st United Thermal Spray Conference 15-18 September 1997 Indianapolis,

Contains 137 papers from the September 1997 conference. Contributors focus on applications of thermal spray that enhance the performance and extend the lives of industrial components and machinery which are subjected to wear, corrosion, friction, and heat. Sections cover industrial applications of coatings; hard and erosion wear resistant coatings;
