

The Secretary

After months of unemployment, beautiful young Chloe finally had her opportunity, as a secretary to wealthy and powerful Alexander Hamilton. He was an arrogant man, but he had much to be arrogant about. And his power, his wealth, and his suave nature soon had her falling in love with him. But Hamilton was a cynical man well-used to having women throw themselves at him. He had little interest in a common little office girl except for the obvious. And after using her thoroughly he sets out to break things off by simply being coldly demanding and forcing her into ever more degrading use. But when the girl seems to only become more infatuated with him he decides to see just how far he can lead her down the road to complete submission.
