

## The Spirit of London

First published as Johnsons Life of London, now released with new material following Jubilee and Olympic celebrations in 2012. This updated history of London shows that the ingenuity, diversity, creativity and enterprise of the city are second to none. Londons buildings may be famous, Londons history may be lengthy and illustrious, but it is Londons people who have given, and continue to give, the city its exuberant and exhilarating profile. London of the Olympic and Jubilee summer displayed Londoners on a world stage, but this is a city which has always lived on the energy and skills of its people, drawn to the capital from all over the country and the world. Boris Johnson shares with us his pleasure at Londons vitality and unique character, and selects the people who in his view have contributed so much to the spirit of London some very famous figures, some more obscure. He includes everyone from the Romans to one of the authors predecessors as mayor, Dick Whittington; from John Wilkes (a strong upholder of the freedom of the press) to J.W. Turner; from Chaucer to Gandhi, and through to modern times. Due to the limitations of some ereaders, it is not possible to show some special characters.
