

## Direct3D in a Week

Direct3D in a Week is one of the series of books covering various topics of science, technology and management published by London College of Information Technology. The book will cover the introduction to the Topic and can be used as a very useful course study material for students pursuing their studies in undergraduate and graduate levels in universities and colleges and those who want to learn the topic in brief via a short and complete resource. We hope you find this book useful in shaping your future career, Please send us your inquiries related to our publications to [press@lcit.org.uk](mailto:press@lcit.org.uk) London College of Information Technology
